Website Launch Checklist

A practical step-by-step checklist for Pakistani businesses launching a new website.
Use this before going live to avoid common mistakes.

1. Domain & Hosting

- ■ Domain name registered and DNS pointed correctly
- ■ Hosting account active (shared / VPS / cloud)
- ■ SSL certificate installed and forced HTTPS
- ■ Nameservers updated (if using external DNS)
- ■ Email accounts created (info@, support@, etc.)

2. Website Content & Structure

- ■ All pages created (Home, About, Services, Contact, Blog if needed)
- ■ Company information, address, phone & email are correct
- ■ High-quality images optimized (compressed, proper size)
- ■ Logo and brand colors consistent across the site
- ■ Contact form tested and emails received
- ■ Privacy Policy and Terms pages added

3. Technical Checks

- ■ Website loads fast on mobile and desktop
- ■ Mobile responsiveness tested on real devices
- ■ All internal & external links working (no 404s)
- ■ Favicon uploaded and showing in browser tab
- ■ XML Sitemap generated and submitted to Google Search Console
- ■ robots.txt file present and correct
- ■ Google Analytics / Meta Pixel installed (if required)

4. Security & Backups

- ■ Strong admin passwords set (not default)
- ■ Login URL changed / protected (if WordPress)
- ■ Automatic daily backups enabled
- ■ Security plugin / firewall configured
- ■ File permissions checked (especially uploads folder)

5. SEO Basics

- ■ Unique Title tags and Meta descriptions on every page
- ■ Proper heading structure (H1 → H2 → H3)
- ■ Image ALT texts added
- ■ Google Business Profile claimed (for local SEO)
- ■ Website added to Google Search Console & Bing Webmaster

6. Final Pre-Launch

- ■ Tested website on Chrome, Firefox, Safari, Edge

- ■ Checked loading speed (PageSpeed Insights / GTmetrix)
- ■ Payment / checkout flow tested (if e-commerce)
- ■ 404 page customized and helpful
- ■ Social media links working
- ■ Team trained on how to update content / take backups
- ■ Launch announcement ready (email, social, WhatsApp)
